

Basic Vehicle Maintenance Workshop

If you are a vehicle owner and want to expand your skills and knowledge of maintaining and caring for your vehicle, this class is for you.

The class will focus on the following topics:

- Maintenance — why and when
- Oil — brands and weights
- Taking your vehicle in for service — what you need to know
- On the road — emergencies and accidents
- Checking fluid levels and filters
- Finding a reputable repair shop — ASE certifications
- Tires — maintenance, purchasing and how to change a flat
- What does that warning light mean?
- Hands-on lab

Class is taught by Jack Larmor, who has been working in the automotive service industry for more than 25 years and an instructor in automotive technology for the past 15 years. He is an ASE-Certified Master Technician. Enrollment is limited. Optional textbook.

Passport to Retirement

With financial independence, retirement can be the most fulfilling time of your life. The Passport to Retirement workshop covers important money management concepts and educates attendees on how to potentially overcome the roadblocks to a successful retirement. Topics include defining and creating a retirement plan, assessing the costs of retirement, evaluating the sources of retirement income, investing for the future, protecting your health and wealth, receiving funds from retirement plans and managing your estate distribution.

The class is taught by financial professionals; however, no products or investments will be promoted or offered. The fee includes a written course workbook and study aids. **One workbook per registration is included in the cost. Spouse may attend at no additional charge but must also pre-register.**

Vex Robotics

The VEX Robotic team provides students 3rd grade through high school the opportunity to learn about competitive robotics as part of a community team. Students can participate year round (fall, winter, and spring/summer) with new contests and projects being implemented annually. Students will gain an introduction to mechanical, electrical, programming and CAD design while keeping track of individual progress through an engineering notebook. Students also develop additional skills, including multimedia marketing, team building, time management and public speaking.

Interested students should visit a class session to learn more and meet the other team members and mentors. Contact mmohn@monroecc.edu or jeffdemaray@yahoo.com for further information.

Seasonal Crafting

With Carolsue McCue

The following classes are taught by The Herb Cottage owner, Carolsue McCue, of Port Huron. She has been designing herb and old-fashioned perennial gardens for decades and uses her harvest to teach many creative classes. Creativity is absolutely not required, as Carolsue helps each student step by step.

NEW!

Harvest Wreath

You will be given a 28-inch twig wreath already assembled. You can make the wreath larger depending on the length of items you add. We will add soft cocoa brown setaria, burnt orange safflowers, soft orange Chinese lantern blooms, light green tapestry wheat and Vermont cream grasses, puffs of hydrangea, eucalyptus, weeping bamboo and a beautiful matching bow. This wreath will last for years and is absolutely gorgeous.

Please bring scissors and a glue gun. All other project supplies are included in the cost.

NEW!

Spiced Rum Potpourri

A must-attend class that you can take over and over for years! We will make this amazing, natural, beautiful fall fragrance of spices and dried fruit to use in your home and especially to give as gorgeous gifts. The fragrance lasts for years. Carolsue will also teach you how to make New Hampshire Christmas Evergreen potpourri for the Christmas holiday time and through the winter. Each attendee will take home huge bags of what we make. Carolsue will also give each person a packet of her other favorite recipes she makes for her gift shop. **All project supplies are included in the cost.**

Victorian Christmas Tree

Back by many requests! Bring a two-foot faux Christmas tree to class and we will smother it with ribbons, baby's breath, roses, dainty statice, globe amaranth, lavender, delicate peppergrass, yarrow buds, rice flowers and a beautiful botanical topping. Delightfully fragrant for home or a gift. Your decorated tree will last for years to come. **In addition to your tree, please bring scissors and a glue gun. All other project supplies are included in the cost.**

English as a Second Language (ESL)

This class is intended for non-native speakers of English. The class will focus on reading, writing and listening skills in English. It will aid the student in using correct grammar and pronunciation, as well as getting a better grasp of content and gist. American culture and ethos will be discussed to familiarize the student with the new world he/she will be living in. Different levels of English skill ability are welcome. CEUs: 4.0

6 - 8 p.m. A 173a Saddy

Beginning German

This beginning course is focused on the fundamentals of the German language. You will learn German grammar and vocabulary while being introduced to contemporary life and culture in German speaking countries. All four language skills – listening, speaking, reading and writing – play a major role in the language learning process. Topics to be covered include introducing and talking about oneself, shopping, telling time, family life and travel. By the end of the course, you will be able to participate in simple conversation in a German speaking environment.  CEUs: 1.6

HUMN 710-81

\$74 (Senior Fee \$37) Thursdays Oct. 12 - Dec. 7
5 - 7 p.m. Z 257 Kotanova

No class on November 23

German II

This course is a continuation of Beginning German. The main goal is to master German grammar and learn how to interact with other speakers in German. The textbook "Aussichten" offers a variety of activities to practice the four basic skills of listening, speaking, reading and writing. The course will also prepare you for intermediate German and will improve your conversational skills while traveling in German-speaking countries.  Same book as the beginning class. CEUs: 1.6

HUMN 719-81

\$74 (Senior Fee \$37) Tuesdays Oct. 10 - Nov. 28
5 - 7 p.m. Z 257 Kotanova

PERSONAL INTEREST

About the Instructor - Matt Wittman

This course will be led by Matt Wittman, an information technology professional for more than 18 years and director of I.T. for a multi-million dollar marketing firm in Ohio. He has an extensive background in business and military cyber security practices, as well as multiple other facets of the I.T. industry on multiple platforms. He holds degrees from the University of Toledo and the Community College of the Air Force and is a graduate of the Air Force Non-Commissioned Officers Academy. He has trained, mentored and taught in multiple capacities in the areas of education, business, military and health care and is a Microsoft Certified Professional, a member of the Information Systems Audit and Control Association focusing on COBIT 5, and active in local technology consortiums. He is also a private consultant in the I.T. industry.

Cyber Security and Your Digital Self

We work online. We play online. We shop online. We live online. As our lives increasingly depend on cyber, the need to protect our digital selves from malicious disruption is more important than ever.

This course will help you understand, sort out and apply practical methods and key steps for protecting your digital self, whether at home or at work. You will learn to recognize threats that could harm you online and the steps you can take to reduce the chances that they will happen to you.

The course can be valuable if you are interested in improving your knowledge and practice of cyber security to go beyond basic online research and help protect your "digital self." All that is needed is a desire to learn, discuss and interact. Internet access will be utilized in the classroom, and you are encouraged to bring your own device. CEUs: 1.2
