

2018 – 2019 • Health Sciences Division

This program option provides an opportunity for students that hold an active, unencumbered license as a practical or vocational nurse to pursue an associate of applied science in nursing degree. Students accepted into the option will complete coursework that prepares them to enter the traditional registered nursing program. Once completed, students transition into the traditional program for the final third and fourth semesters of nursing study. Graduates earn an associate of applied science degree with specialization in nursing and are prepared to function as beginning registered nurses and members of the health care team. Registered nurses are qualified to work in a variety of healthcare settings, including acute care hospitals, outpatient clinics, extended care facilities and physicians' offices. With experience, nurses may also participate in providing skilled care in more specialized areas, including psychiatric units, emergency departments, pediatric and obstetric units, critical care units and home health settings. Job pay is exceptional, averaging \$67,000 annually for practicing nurses, according to the Bureau of Labor Statistics, and nursing is a flexible and mobile career choice.

Career Opportunities

Upon program completion, students will be prepared and eligible to apply for licensure in the State of Michigan. Students must meet the Michigan Board of Nursing eligibility requirements and successfully pass the National Council Licensure Exam (NCLEX-RN) in order to become a licensed registered nurse.

Transfer Information

Upon program completion, students may be eligible to enroll in a RN to BSN completion program. MCCC's RN program has articulation with several four-year university partners. For information regarding transfer opportunities for this or any program, please go to <http://www.monroecc.edu/academicadv-transfer/transindex.htm>.

Additional Program Information:

This nursing program is approved by the Michigan Board of Nursing and accredited by the Accreditation Commission for Education in Nursing.

PN to RN Program Option Admission Criteria

The PN to RN program option students are chosen according to selective admission criteria. Option applicants must meet established minimum criteria to be considered for admission. Application deadlines will be posted on the program option website. Only applicants who meet established minimum criteria by the deadline will be considered for admission. The potential applicant needs to be aware that meeting minimum standards does not guarantee admission. Applicants tend to be well qualified and will be

PN to RN PROGRAM OPTION

accepted until each cohort is fully enrolled. Returning students in good standing will be considered for reenrollment/readmission first. Additional candidates will be accepted according to the selection criteria below until a cohort is fully enrolled.

Minimum admission criteria and PN to RN program option selection criteria for each application deadline are available for review by visiting the program's webpage at http://www.monroeccc.edu/health_sciences/pn_rn_option.html. Students can also receive application information by contacting the Health Sciences Division Office at 734.384.4102 or by contacting the MCCC Admission's Office at 734.384.4104.

General Information

1. The class will be selected from the pool of applicants by use of the numerical process.
2. A physical examination and immunizations are required of students selected for the program, at the student's expense, which verify capabilities and general health status.
3. Nursing students are required to have professional liability and personal health insurance. The professional liability insurance is provided by the college. Personal health insurance must be obtained by the student and maintained throughout the program in order to comply with clinical agency requirements. Proof of insurance will be required prior to participating in the first clinical activity.
4. An active American Heart Association cardiopulmonary resuscitation (CPR) certificate for professional rescuer of infant, child and adult.

5. Students admitted to health science programs must consent to background/security checks including a criminal background check and drug screening. The student is responsible for any cost associated with the background/security/drug screening checks. Certain criminal convictions may render a student ineligible to train at clinical sites which are necessary in order to successfully complete the program. Additionally, certain criminal convictions may render an individual ineligible to take the licensing/certification exam or to be licensed/certified in the State of Michigan. The college will review the results and determine, on a case-by-case basis, whether to deny admission to any individual based on the results of the background check, criminal background check and drug screening.
6. Registered nursing at the associate degree level involves the provision of direct care for individuals and families and is characterized by the application of verified knowledge in the skillful performance of nursing functions. Therefore, in order to be considered for admission or to continue in the program, all applicants must be able to meet the health sciences technical standards available at http://www.monroeccc.edu/health_sciences/nursing/index.htm.
A prospective student or participant in the program with an approved documented disability can request reasonable accommodations to meet these standards. The college will provide appropriate accommodations, but is not required to substantially alter the requirements or nature of the program. Requests for accommodations should be directed to a disability services counselor in the Learning Assistance Laboratory. To make an appointment, please call 734.384.4167.
7. Students who successfully complete at least one nursing class must complete the nursing portion of the program within five semesters of the start of the first PN to RN (PNRN) course. Failure to meet the time framework necessitates program dismissal and re-application.
8. Nursing courses utilize Internet services and resources to supplement instruction. It is recommended that students have access to a reliable computer with Internet connection. MCCC offers open access computer laboratories, but students should also be familiar with community resources for computer access, such as public libraries, as needed. A personal computer is helpful.

PN to RN PROGRAM OPTION

9. Nursing education offered at MCCC is provided in collaboration with multiple clinical partners located in southeast Michigan and northwest Ohio. As a part of these partnerships, MCCC students and faculty are required to meet and follow the policies and procedures of these clinical partners. Given the number of students in the program, faculty must be able to place students at any of the clinical agencies for clinical and observational experiences during the course of the program. Students need to be in good standing with all clinical agencies, both as a student and as a member of the community. Therefore, any condition (i.e. criminal history, positive drug screening, unprofessional/unethical behavior, negative employment history) that prevents a student from being placed in any clinical agency during a semester may jeopardize the student's ability to meet the course objectives and may lead to course failure and program dismissal.
10. The student must receive a "C" or better grade in all nursing courses and a "C-" or better grade in all non-nursing courses required in the program plan of study. Failure to meet this requirement may result in the inability to progress to the next semester of the program.
11. Students are expected to maintain a flexible schedule for the nursing program. Clinical assignments vary and are subject to change. This may include any day of the week and any shift, including weekends. On days that are not scheduled for class or clinical, students may be expected to view audiovisual material, study in the skills laboratory, or participate in other on-campus activities. Usually, these activities are self-scheduled. There may be added classes on other days, but students will receive notice of these in advance.
12. In conjunction with requirements set forth by the Michigan Licensing and Regulatory Affairs (LARA) agency, information related to the student complaint process, career opportunities by state, and licensing requirements by state can be accessed by visiting the following websites: a) Student Complaint Process: <http://www.monroecc.edu/consumer/programintegrity.htm>; b) Career opportunities by state: <http://bls.gov/>; and c) Licensure requirements by state: <https://www.ncsbn.org/contact-bon.htm>.
13. In addition to the general college rules, nursing students are required to adhere to policies and procedures outlined in the

Nursing Program Student Information Handbook. A copy of the Student Information Handbook is available at http://www.monroecc.edu/health_sciences/nursing/index.htm.

Technical Standards

The purpose of the technical standards is to inform students choosing to enter into a health occupation program of the basic minimal technical standard requirements that must be met in order to complete all course work objectives and student outcomes. The listed standards encompass what is minimally required to perform necessary tasks. This list is not exhaustive, and can be modified as the college deems necessary at any time. Students enrolled in a health occupation program at MCCC must provide care that is safe and effective. These technical standards apply to any student enrolling in any one of the health occupations programs. The student must be able to demonstrate sufficient cognitive, professional, motor (physical), sensory, and other abilities, with or without accommodation, to meet program technical standards. Technical standard requirements are listed below. Examples of tasks associated with each requirement and standard are available for review by visiting http://www.monroecc.edu/health_sciences/. Prospective students are encouraged to review the Technical Standards for Health Occupational Programs document in its entirety prior to enrolling in or applying to any health occupation course or program.

- **Critical Thinking and Cognitive Competencies:**
Sufficient critical thinking and cognitive abilities in classroom and clinical settings.
- **Professionalism:**
Interpersonal skills sufficient for professional interaction with a diverse population of individuals, families, and groups.
- **Communication:**
Communication sufficient for professional interactions.

- **Mobility:**
Physical abilities sufficient for movement from room to room and in small spaces.
- **Motor Skills:**
Gross and fine motor abilities which are sufficiently effective and safe for providing allied health care.
- **Sensory:**
Auditory and visual ability sufficient for observing, monitoring, and assessing health needs.
- **Observation:**
Ability to sufficiently make observations in a health care environment, consistent with program competencies.
- **Tactile sense:**
Tactile ability sufficient for physical assessment.

See item No. 6 under "General Information" for information regarding accommodations.

Note: The following codes identify courses that satisfy MCCC's General Education Requirements:
 (C1) GE Natural Sciences Competency
 (C2) GE Mathematics Competency
 (C3) GE Writing Competency
 (C4) GE Computer Literacy Competency
 (C5) GE Human Experience Competency
 (C6) GE Social Systems Competency

BIOL 151* (Biological Sciences I)	C1
BIOL 257 (Anatomy & Physiology I)	4
BIOL 258 (Anatomy & Physiology II)	4
One of the following**:	
ENGL 152 (English Composition II)	3
HLTSC 120 (Pharmacology)	3
Spring Semester	
PNRN 100 (LPN Transition to RN Practice)	3
ENGL 152 (English Composition II) or HLTSC 120 (Pharmacology)	3
Summer Semester	
PNRN 110 (Mental Health Nursing Care for the LPN)	3.5
Fall Semester	
NURS 204 (Obstetrical Nursing Care)	4
NURS 205 (Pediatric Nursing Care)	3.5
NURS 210 (Nursing Leadership & Management)	3
Winter Semester	
NURS 208 (Medical Surgical Nursing Care II)	8.5
NURS 212 (Nursing Practicum)	2.5

* Prerequisite to BIOL 257 (Anatomy & Physiology I); not a program required course.

** Students must complete either ENGL 152 (English Composition II) or HLTSC 120 (Pharmacology) or equivalent prior to application. The remaining course is required during the spring/summer semester, unless previously completed.

Additional courses to satisfy General Education Graduation Requirements

These courses are not program requirements; however, they must be completed in order to be eligible to graduate from the college. Students may choose a satisfier course from the college catalog and take the course during a semester of their preference. Suggested semesters to take the courses are listed below.

- (C2) Mathematics Competency¹
(Suggested: Fall semester)
- (C4) Computer Literacy Competency¹
(Suggested: Summer semester)
- (C5) Human Experience Competency
(Suggested: Pre-Admission)

¹ Can be satisfied with qualifying score on accepted placement tests (Math Competency) or through a competency test (Computer Literacy Competency)

Required General Education Courses	Credits
C1 BIOL 151 (Biological Sciences I)	4
C2 Mathematics Competency	4
C3 ENGL 151 (English Composition I)	3
C4 Computer Literacy Competency	3
C5 Expressions of the Human Experience Competency	3
C6 PSYCH 151 (General Psychology)	3

See the General Education Requirements in the college catalog for a list of courses that satisfy the General Education Learning Competencies.

Required Courses and Sequence	Credits
Pre-Admission Course Requirements	
ENGL 151 (English Composition I)	C3
PSYCH 151 (General Psychology)	C6

Total Degree Requirements 62 maximum
Total Degree Costs 87 billable contact hours maximum

Monroe County Community College is an equal opportunity institution and adheres to a policy that no qualified person shall be discriminated against because of race, color, religion, national origin or ancestry, age, gender, marital status, disability, genetic information, sexual orientation, gender identity/expression, height, weight or veteran's status in any program or activity for which it is responsible. If you have a disability and need special accommodations, please contact the Learning Assistance Laboratory at least 10 business days prior to the first class session to schedule an appointment to begin the accommodation process. The LAL phone number is 734.384.4167.

Monroe County Community College is accredited by the Higher Learning Commission.
