FOR IMMEDIATE RELEASE

TWO NEW RENEWABLE ENERGY COURSES AVAILABLE AT MONROE COUNTY COMMUNITY COLLEGE

MONROE, Mich. – Monroe County Community College has introduced two new courses in renewable energy that will be available this Fall Semester.

The courses are Introduction to Alternative Energy and Introduction to Photovoltaic and Solar Energy Systems.

Introduction to Alternative Energy is an exploration the basic principles of energy systems for both renewable and conventional energy. Topics include energy generation, flow, conversion, storage, economics, consumption, sustainability, conservation, environmental impact and regulatory concerns.

Introduction to Photovoltaic and Solar Energy Systems is an introduction the basics of solar energy collection, conversion, transmission and storage in both thermal and photovoltaic systems. Topics include solar radiation, domestic hot water systems, photovoltaic models, battery systems, inverters, grid-tie components and regulations.

Fall Semester begins August 25, and registration is underway.

For additional information about the courses, please contact Clifton Brown, assistant professor of renewable energy, at (419) 384-4264 or cwbrown@monroecc.edu.

For registration information, please contact the Office of Admissions and Guidance Services at (734) 384-4104 or toll free at 1-877-YES-MCCC, extension 4104.
