FOR IMMEDIATE RELEASE

X-TECH TO HIGHLIGHT CAREERS IN INDUSTRIAL TECHNOLOGY

MONROE, Mich. – Monroe County Community College will present X-Tech – an opportunity for career exploration in industrial technology – on Wednesday, April 20 from 4 p.m. to 8 p.m.

The event will take place in the East and West Technology Buildings on the Main Campus, which is located at 1555 S. Raisinville Road.

X-Tech is for high school students and their parents, career-changing adults and all others interested in experiencing what it is like to study and work in the industrial technology fields offered at the college.

Two new programs will be featured – product and process technology and nuclear engineering technology – as well as new courses in alternative and renewable energy. Other programs to be showcased include automotive engineering technology, construction management technology, electronics and computer technology, heavy construction management technology, product and process technology, industrial electricity/electronics technology, mechanical design technology, mechanical engineering technology, metrology/quality systems technology and welding technology.

(more)

Participants will have the chance to weld metals, run state-of-the-art machine tools, control robots, draw with CAD equipment, test steel strength, program electronic equipment and more.

Detailed information on plans for MCCC's new Career Technology Center will also be available at X-Tech

The event is free for all participants and includes giveaways and refreshments. A scholarship opportunity will also be available.

For more information, contact the MCCC Industrial Technology Division at (734) 384-4112 or 1-877-YES-MCCC, extension 4112.
