FOR IMMEDIATE RELEASE

MCCC ACCEPTING APPLICATIONS FOR FINAL 7 NUCLEAR ENGINEERING TECH. PROGRAM SEATS

MONROE, Mich. – Monroe County Community College is still accepting applications for the seats in its 20-seat nuclear engineering technology program cohort for Fall Semester, which begins Aug. 30.

Seven seats remain.

Interested students should contact the Office of Admissions and Guidance Services at (734) 384-4104 or 1-877-YES-MCCC for details on how to apply.

The associate of applied science degree with specialization in nuclear engineering technology enables prospective students to seek employment as nuclear engineering technicians in various sectors of nuclear power industry. This specialization utilizes a learning approach that emphasizes both theory and hands-on skills necessary to function effectively in the technical environment of the industry. The program stresses effective oral and written communication, as well as related mathematics, science and technical skills.

Students will be required to meet or exceed a grade of B (80 percent) or higher in each course containing core fundamentals and discipline-specific learning objectives will qualify for the Nuclear Uniform Curriculum Certificate – a credential recognized across the nuclear industry – in addition to a diploma.

(more)

Graduates of this program will be prepared for entry-level employment in the following areas:

- Mechanical technician
- Electrical technician
- Instrumentation and control technician

Graduates with additional training experiences will be prepared for employment in the following areas:

- Radiation protection technician
- Non-licensed operator
- Senior reactor operator

For additional information about the program, please contact the Industrial Technology Division at (734) 384-4112.
