(more)

## Press Release

NCCCO is a nonprofit organization founded in 1995 to establish a fair and independent evaluation of crane operator knowledge and skills.

New rules state that signalpersons and riggers need to be qualified (rather than certified) by a qualified evaluator and that certification by an organization such as NCCCO meets this requirement. Qualification can be either through a third-party qualified evaluator (such as an accredited certification body) or through an employer's qualified evaluator. All signalpersons and riggers must be qualified and tested through a written oral test and a practical test, and the qualification must be documented. NCCCO certification meets this requirement.

To register, contact Monroe County Community College's Corporate and Community Services Division at (734) 384-4127.
