NARRATIVE

On this date at approx. 10:50pm, complainant reported that sometime, between 6:00pm and 10:00pm, someone struck his listed vehicle, which was parked in Lot 2, in the center lot, facing south. It appears that someone backed up, struck his car causing damage to the left rear of the car.

Complainant was advised to contact the Sheriff's Dept, and complainant said that they were on their way. Complainant asked if the cameras might have caught this, and due to the reporting officer was just going out of service, and would not be back for 8 days, he referred complainant to Supervisor Bill Meyers, who may be able to assist him on dayshift. The officer has nothing further at this time.
