

MCCC - Security Incident
Date: 4 Dec 2017
Time: 11:45 AM
Reporting Officer: kwerner

Subject:: Other
Location: Loading Dock A Building
Witness:
Victim:
Complainant: Nichole Roach
Suspect:

Narrative:

Subject: Attempting to verify a linen delivery of 20 un-located white table linens on 4 hangers.
Value, \$140.00

Complainant: Koch Food Service at MCCC Manager

Company: Sohn Linen
Contact:

On Monday 12/04/2017, Officer spoke with Kosch manager who advised that she had been unable to locate the above linens. She had been advised by Sohn Linen Service that the linens had been dropped off at the MCCC loading dock on Tues. 11/28/17 between the hours of 09:00 and 11:00am.

The Kosch manager showed me an example of the missing items. The linens are quite large and since hanging on the hangers, they would be very obvious if someone were carrying them.

Upon attempting to watch the loading dock surveillance cameras for that time period, it was discovered that all of the CMS watch cameras had quit recording due to a malfunction on 11/23/17. So there was no way to confirm that the linens were delivered.

Neither the Custodians nor the receiving clerk had observed the linens to be in the red cart where they normally would be located after their delivery in the loading dock area.

Officer also spoke with representative of Sohn Linen. After discussion with those involved it was determined that this would be an "Attempting to verify a linen delivery" report. Not a larceny report.

Nothing further at this time
