Narrative:

Reported hit/skip accident in lot #7

Witness:

Suspect:

Suspect's Vehicle: An older model dark green Dodge Intrepid.

Parked Vehicle: An older blue Ford Focus 4 door.

At approximately 1:15pm 10/22/2014 Officer was called to meet with the witness, who advised me that at approximately 10:45am this morning he had observed the green Intrepid's passenger side front bumper strike the center of the Ford's rear bumper as the suspect backed out of parking spot. The suspect parked for a minute but then drove away without leaving a note. As witness had observed that a hole had been made in the center of the Ford's rear bumper above the license plate, witness called the MCSD with their cell phone and reported the incident along with the suspect's license plate number. Witness stated that they advised them that they would wait until the owner of the Focus made a report to investigate.

Officer went to the scene with witness and we found that the Ford Focus was no longer in the parking lot. He indicated that it had been facing the Small Pond in the fifth parking space at the north/west corner of lot #7.

As witness did not remember the license plate number of the Intrepid and the Focus had left the area, this is an informational report in case the owner of the Focus makes a complaint.
