Victim: MCCC

Narrative:

On Monday 11/6/2017 R/o was approached by Maintenance Supervisor. He was reporting damage to the mirror in the men's bathroom in the CTC building. He had discovered the damage on Thursday morning, 11/2/2017, and stated he had delayed making the report until he could speak with his staff to obtain further information.

Supervisor did not find out any further information after speaking with his staff. The damage was discovered on Thursday morning and the report was made to R/o on Monday afternoon.

R/o reviewed the damage and noted it was specific to the mirror in the men's bathroom that is located across from the staff offices in the front of the building. The lower left corner was cracked and displayed what appears to be 5 impact points. The impact points appear to be from a hard, possible metallic material, similar to a rivet impacting the glass.

Investigation is negative on witnesses or suspects.
