

MCCC - Security Incident

Date: 7 May 2015

Time: 10:30:00

Reporting Officer: kwerner

Subject:: Accident

Location: Parking Lot #1

Witness:

Victim:

Complainant:

Suspect: N/A

Narrative:

Property damage single vehicle accident

Vehicle:

Insurance: State Farm

Officer responded to parking lot #1 and located the above vehicle and driver at the most south/west streetlight pole. The very center/front of the vehicle showed extensive bumper, grill, radiator, and hood damage, with both front airbags deployed. Victim was walking around outside of the vehicle with no apparent injuries and I found him to be completely alert and oriented. Upon questioning he assured me that he was uninjured and had no need of any medical assistance.

Victim then related that he had been scanning the parked cars in the lot looking to park next to his friend's cars and he simply did not see the light post until he had hit it. He contacted his mother and she left it up to his discretion as to where to have the vehicle towed.

I had MCCC Operators respond and check out the pole and concrete base. There was no indication of the impact at on either item.

As victim showed no indication of any injury and denied injury, MCSD was not notified by me, but he was advised that should be contacted if an accident report was needed. (no collision insurance on the vehicle)
