Subject: Accident

Location: Detroit Edison Solar Panel Area

Witness:

Victim: Unknown

Complainant: W. Huff

Suspect: None

Narrative:

Driver:

Vehicle: 1999 Freightliner, Reg: Ontario, , Expires: 01/15, Green in color.

Owner:

Trailer: Reg: Michigan,

Owner:

Insurance: Zurich Insurance, Policy

Witness:

Witness:

Incident: R.O. observed the listed vehicle heading west, attempting to exit the solar panel area, using the driveway over the ditch. The attached trailer was very close to the post on the south side of the drive. R.O. then heard someone yell, you hit it. The vehicle then backed up and attempted to exit the drive. This time the trailer did strike the pole on the south side of the drive, damaging the pole. R.O. then walked over to the truck and advised he would have to make a report and needed I.D. Officer explained that property was damaged and a report needed to be made for the college, thus the police would not be called. R.O. advised the boiler operator, who responded to the scene. It is unknown who owns the pole, MCCC or Detroit Edison. The vehicle was able to exit the drive using a different approach.

Status: Closed Report Made
