Course Description	This course offers in-depth coverage of core server services. Students will apply the knowledge gained to successfully install and securely configure, operate and maintain a Server Operating System to include: setting up user accounts, configuring appropriate authentication policies, configuring audit capabilities, performing back-ups, installing patches and updates, reviewing security logs, and restoring the system from a backup. The Course Outcome Summary can be found at <u>https://www.monroeccc.edu/course-outcomes.</u>
COURSE BEGINS	Wednesday, August 21, 2024
COURSE ENDS	Monday, December 9, 2024
REGISTRATION PROCESS	Students must register for the course through the College's regular registration process. If you are a first-time online student at MCCC you must complete an online orientation course (ONL-001). You will be automatically enrolled into the online orientation course, which will provide you with critical information on the technical, study, reading and writing skills necessary to be a successful online student. This course will be listed in your MyCourses module in Brightspace and there will be 4 modules to complete. Please note that all four modules will NOT be visible when you first login, but will become visible once you complete the requirements for each module. Please complete FL2024-ONL-001-L1 by August 28 . Failure to complete the online orientation by the above date may result in <u>de-registration from your online course</u> .
EXAMS OR ASSIGNMENTS	All exams and assignments are completed online.
ADDITIONAL INFORMATION: EXAMS OR ASSIGNMENTS	Some online classes require students to take exams at authorized, proctored locations. Test proctoring centers are authorized testing locations where a staff person administers a test or assignment. If students are not able to arrange transportation to MCCC's main campus for testing, a proctored test site must be arranged. Students near the MCCC campus can take the test in the Testing Center.
