

“Whispers on the 41st Latitude”

What is it?

It is an art installation created with and for the Monroe community in the month of September.

Artist Beatrix Reinhardt will guide participants through a workshop (they are FREE) to learn the early photographic method called cyanotype. The one-of-a-kind cyanotypes created by each participant will be exhibited in the Workshop Hub, located at 52 S. Monroe Street in Downtown Monroe throughout the month of September.

Contact: email - Beatrix.Reinhardt@csi.cuny.edu or call at 347-968-1357

“Whispers on the 41 Latitude” is a community art project funded by The Foundation at MCCC in partnership with our workshop location hosts, and through the generous support of our sponsors:
